

Price: \$50.00
Price includes CD-ROM and shipping.

Break Free Alliance is a program of the Health Education Council. Our mission is to reduce the prevalence of tobacco use among populations of low socioeconomic status.

The National Commission on Correctional Health Care (NCCCHC) is a not-for-profit organization that is committed to improving the quality of health care in jails, prisons, and juvenile confinement facilities.

Tobacco Cessation in Correctional Settings: An Overview for Health Professionals

This CD-ROM serves as a companion piece to *Tobacco Cessation for Correctional Populations: A Health Education Manual*. It includes automated PowerPoint slideshows of Modules One and Two (the first is designed to educate on the health effects of tobacco use, the second is a guide for quitting) with spoken commentary. In addition, there is an overview of the connection between low socioeconomic status and tobacco use, a synopsis of the literature as it relates to tobacco use and prisons, links to additional resources, and the NCCCHC standards relating to tobacco policies for prisons and jails.
