

Pruebas de COVID-19 / COVID-19 Testing Condado de Modoc / Modoc County

Siempre revise la página web de su condado para la más reciente información / Always check your county's website for the most updated information.

Modoc County Public Health Department

<http://modochealthservices.org/corona-virus>

El Centro Médico Modoc y el Hospital Surprise Valley tienen suficientes materiales COVID-19 para las necesidades actuales y proyectadas. Sin embargo, las solicitudes innecesarias afectan a los proveedores de atención médica y su capacidad para atender a pacientes de alto riesgo. Todas las instalaciones médicas están evaluando pacientes antes de la prueba. Si tiene síntomas, llame a su médico de atención primaria. Lo evaluarán y determinarán si es necesario realizar pruebas basado en los síntomas, los viajes y las exposiciones.

Modoc Medical Center and Surprise Valley Hospital have enough COVID-19 materials for current and projected needs. However, unnecessary requests impact healthcare providers and their ability to care for patients at high risk. All medical facilities are screening patients before testing. If you are experiencing symptoms, please call your primary care physician. They will evaluate you and determine if testing is needed based on symptoms, travel and exposures.

DO I NEED TO BE TESTED FOR COVID-19?

COLD/UPPER RESPIRATORY INFECTION	INFLUENZA	COVID-19
Runny/stuffy nose/sneezing SOMETIMES: Sore throat SOMETIMES: Fatigue RARE SYMPTOM: Aches and Pain	Fatigue Aches and Pain Fever Cough Runny/stuffy nose	Fatigue Dry Cough Fever SOMETIMES: Runny nose MAJOR SYMPTOM: Shortness of breath or difficulty breathing

Modoc Medical Center and Surprise Valley Hospital have enough COVID-19 testing materials for current and projected needs. However, unnecessary requests impact healthcare providers and their ability to care for patients at high risk. All medical facilities are screening patients before testing. If you are experiencing symptoms, please call your primary care physician. They will evaluate you and determine if testing is needed based on symptoms, travel and exposures.

- ✓ If you have significant shortness of breath, see a doctor.
- ✓ If you have a cough, fever, sore throat BUT NO shortness of breath, self isolate for 14 days.
- ✓ Many patients with COVID-19 may have mild or no symptoms but are very contagious.
- ✓ Social distancing and proper hand washing is the best course of action to prevent COVID-19.
